What our clients say about us

Hewett Executive Talent recently filled the position of an Operations Manager for our Birmingham site. Their approach really raised the bar by being so receptive to our needs and matching what the role and the business required. The idea of developing a relationship in this way is something I like – it means that the level of understanding of me and the business is intrinsically there, so that when I speak to someone from Hewett's and mention a specific role, they know what I'm looking for. That, combined with broader service, facilitating networking opportunities and seminars for the local HR community, all adds to the package.

HR Director, UK Logistics Company

Can I just say your service is second to none. We have used you quite regularly over the last few years and as I have already said, you and your 'team' have the exact knack of fitting the client to the customer every time, without fail. The Commercial Temporary Team has never let us down even at very short notice. Hewett Recruitment is a truly professional organisation and committed to the needs of your customers. – Well done!

Administration Manager, Public Sector

For my IT recruitment needs, the key thing Ben did well was to listen to my requirements, rather than feed me glib sales phrases. Ben successfully managed the process from planning of interviews through to job offers.

Development Manager of Midlands Based Software Company

Hewett Recruitment is my preferred supplier of temporary and permanent administrative staff; indeed they are the only agency that I use. The reason for this? Because they do exactly what they say they will do. Teresa Gaiderman and her Worcester team have taken the time and trouble to understand the needs of the company. Hewett Recruitment – the only agency in Worcester that I will trust with my recruitment requirements.

Human Resources & Training Manager, National Building Contractors

I would like to thank Hewett Recruitment Industrial Division for their continued excellent service. Your commitment, efficiency and professionalism and attention to detail has always been second to none. Where the philosophy of other agencies appears to be 'get bums on seats', Hewett Recruitment has always gone for 'best fit' and always gets it so right. Di and her Industrial team have taken the trouble to really get to know us, how we work, and the calibre of employee we expect.

HRD Manager, Engineering Firm

The quality of candidates presented on your shortlist was remarkably high and we had great difficulty in making a final selection. The degree of 'fit' between the candidates' personalities, and the culture and style of our existing team was particularly impressive. You may be assured that I will not hesitate to employ the services of Hewett Recruitment for all our future permanent recruitment programmes.

HR Manager, Global Manufacturer
